

American Indian/Alaska Native Clients:

HRSA's Ryan White HIV/AIDS Program, 2022

Of the more than half a million clients served by the Ryan White HIV/AIDS Program (RWHAP), 74.2 percent are people from racial and ethnic minority groups; more than 3,700 clients (0.7 percent) are American Indian/Alaska Native (AI/AN) people.

Learn more about AI/AN clients served by RWHAP:

- **The majority of AI/AN clients served by RWHAP are male.** Data show that 75.3 percent of AI/AN clients are male, 21.2 percent are female, and 3.4 percent are transgender.
- **The majority of AI/AN clients served by RWHAP are people with lower incomes.** Data show that 62.5 percent of AI/AN clients are living at or below 100 percent of the federal poverty level, which is higher than the national RWHAP average (58.6 percent).
- **AI/AN RWHAP clients are aging.** AI/AN clients aged 50 years and older account for 49.7 percent of all AI/AN RWHAP clients. This percentage is higher than the national RWHAP average (48.2 percent).
- **Data show that 9.2 percent of AI/AN RWHAP clients experience unstable housing.** This percentage is significantly higher than the national RWHAP average (5.2 percent).
- **Among male AI/AN RWHAP clients, 70.2 percent are gay, bisexual, or other men who have sex with men.** This percentage is higher than the RWHAP national average (67.9 percent) for all male clients.

Medical care and treatment improve health outcomes and decrease the risk of HIV transmission. People with HIV who take their medication as prescribed and are virally suppressed cannot sexually transmit HIV to their partners and can live longer and healthier lives. According to 2022 data, **88.3 percent of AI/AN clients receiving RWHAP HIV medical care are virally suppressed,*** which is slightly lower than the national RWHAP average (89.6 percent).

Population Fact Sheet | April 2024

The Health Resources and Services Administration's Ryan White HIV/AIDS Program (RWHAP) provides a comprehensive system of HIV primary medical care, medications, and essential support services for low-income people with HIV. More than half the people with diagnosed HIV in the United States—nearly 567,000 people in 2022—receive services through RWHAP each year. The RWHAP funds grants to states, cities, counties, and local community-based organizations to provide care and treatment services to people with HIV to improve health outcomes and reduce HIV transmission. For more than three decades, RWHAP has worked to stop HIV stigma and reduce health disparities by caring for the whole person and addressing their social determinants of health.
